To Whom It May Concern,

Since 2011, Energy XXI/Dulan has installed several KAM OWD Watercut Meters on offshore platforms in the Gulf of Mexico. These units are used to monitor high water from multiple wells in real time. Data is regular compared with centrifuge readings and the units have proven to perform to advertise specification with great reliability.

Installation and operation of the units is in accordance with KAM documentation, and, KAM has provided excellent and timely service for all orders and issues.

Regards,

A handwritten signature in blue ink, appearing to read "Mark Rogers", is positioned below the "Regards," text.
